

Sagamore Junior Sailing Program

2022 PARENT HANDBOOK

Revision: March 12th, 2022.

Sagamore Junior Sailing Program
Parent Handbook

Welcome to the 2022 Sagamore Junior Sailing Program!

These pages are meant to be a parent's and future junior sailor's guide in navigating the child's way through the rewarding sport of junior sailing. In these pages you will find details on recommended equipment for the children to bring to the program, goals the program will focus for your child and the expectations of the parents themselves.

Sagamore Junior Sailing Mission

The Sagamore Junior Sailing (SJS) Fleet's Mission is to provide a fun and educational program for youth interested in sailing and racing. We seek to impart a love of sailing as a life sport while providing the fundamental skills necessary for participants to advance in the sport of sailing as far as their desire, skill and hard work may take them. Our instructors shall provide a curriculum with the most current and effective techniques to create skilled and confident youths who will respect others, care for their equipment and be willing to help fellow sailors on and off the water. Our sailors will be expected to conduct themselves in the Corinthian Spirit during practice and in competition. All Junior Fleet sailors, whether their interest be in cruising or racing, should emerge with an enhanced sense of self-reliance, knowledge of seamanship and a solid foundation in the sport of sailing.

An Overview of Junior Sailing

Junior Sailing can be like any other full-time sport such as baseball, soccer or tennis – what a child puts into it will determine what a child will get out of the program. Some of the skill sets that will be taught are self-reliance, working towards a goal, personal commitment and accountability. We believe the achievements of the above objectives will grow naturally through your child's competitive nature as their self-confidence is quietly fortified. We will balance the competitive drive with an emphasis on sportsmanship and fun. We also believe that while your child works on the above objectives in a sailing environment, it can only instill the appreciation of the outdoors as weather and the surrounding environment will be part of their sailing each and every day.

We feel that our junior sailing program is for every child that can swim and likes the water. Rest assured, our program will undoubtedly get children away from the video games and into an active, healthy and thought-provoking environment where new friends will be made as your child grows in a sport that is active from these young ages through the college years and well beyond.

Junior sailing is perfect for all children tall or short, young boys or young girls, as wit and tenacity in this sport does not care what age or gender you may be. Sailing is a true co-ed sport even at the college level and beyond. Some of the greatest sailors in the world are women. Presently our Olympic team boasts of some of the highest-ranking women in the sport.

Sagamore Junior Sailing Program
Parent Handbook

What Junior Sailing has become:

- 1) Opportunity for young children to experience true independence, where they will learn a few skills, get in a boat and will grow as they feel the excitement of freedom and satisfaction of pure individual achievements.
- 2) A worldwide sport with opportunities for every child to excel regardless of gender, financial status or race.
- 3) Avenues to be great at an individual or team sport.
- 4) The beginning of a journey of a true lifelong friendship, where experience with nature is complimented by the high quality of the people that are met along the way.

Starting in the lifelong path of Sailing

Unlike all other sports, sailors have a longer sport lifespan. It is common to see sailors successfully competing into their 70s and beyond. The average span of most other athletes is less than 10 years and most amateurs are fading by the age of 40. An objective of all Junior Programs is to cultivate the love of sailing in children so they may grow in a sport that will warmly embrace their dedication for the rest of your child's life.

Generally, a child will start racing in an Optimist at the young age of 8 and after a few years will progress into other fleets like the Feva, Club 420 and Laser. These other fleets can be the next racing platform from the age of 13 or 14 (depending on your child's size and weight) then through your child's college years. It is also not uncommon for children, after a few years of sailing dinghies, to try out their knowledge as crew on larger boats in the sailing fleets in the harbor. Wednesday nights in Oyster Bay you can find some of these young children assisting racing personally owned sailing vessels or on other days of the week in classic boats from Oakcliff Sailing.

2022 SESSION DATES

The SJS Summer program will run from June 27th to August 19th.

Each day starts at 9:30am and runs until 4:30pm

Two-week Sessions start on any of the following Mondays:

June 27th July 11th July 25th August 8th

There is a minimum requirement of two consecutive weeks for any session, but a sailing period can be expanded to as many weeks desired, up to a total of eight weeks. You can choose whichever remaining weeks fit your schedule best.

A closing picnic style BBQ is tentatively scheduled for Friday, August 19th. Participants from all sessions and their parents are invited to attend.

The SJS Fee is just \$550 per week, a discount is available for children of Sagamore YC Members.

For our racing sailors, and those that would like to attend regattas, we strongly suggest at least four weeks. The regattas we are currently looking to attend are listed below, so you can plan according.

Tentative Regatta Schedules

For the Opti Regatta

Monday, July 10	Noroton Optimist Clinic and Regatta for Girls
Thursday, July 7	Shelter Island, Area A Qualifier
Thursday, July 14	Head of the Bay, Waldo Cup
Friday, August 5	Centerport, Ice Cream Cup
TBD	The Waterfront Center, Area A Qualifier
Tuesday, August 9	Riverside YC, Opti Champs

For the 420 and Feva Regattas

Saturday, Sunday June 25,26	Stamford YC, JSA Preseason Clinic (420,& Fevas)
Thursday, June 30	Seacliff YC, Western Districts (420 & Fevas)
Monday-Wednesday July 18-20	Larchmont Junior Race Week (420 & Fevas)
Monday, Tuesday July 25,26	Cedar Point, JSA Junior Race Week (420 & Fevas)
Thursday Aug 4	Shelter Island, 420 Qualifier
TBD	The Waterfront Center, 420 Qualifier
TBD	Sea Cliff, 420 Qualifier
Thursday-Friday Aug 4-5	American YC, Feva Champs
TBD	420 Champs

*** Entrance fees for regattas and JSA fees are not included in the SJS weekly program fee.**

Junior Sailing Program Committee

Tim Hoyler, 516-695-1517, email: sagamorejuniorsailing@gmail.com

Jim Werner, 516-567-8290, email: sagamorejuniorsailing@gmail.com

Mike Gehrling, 516-768-0932, email: sagamorejuniorsailing@gmail.com

We hope the following information will help you and your child prepare for the first day of sailing class. Please reach out to anyone on the Committee or contact Tim Hoyler directly with questions and concerns. We're here to help!

IMPORTANT INFORMATION

Daily Essentials

The following items can be worn or stowed in a backpack; be sure to label everything well:

- ♣ proper-fitting U.S. Coast Guard approved life jacket
- ♣ sunglasses and/or hat both with tether
- ♣ non-marking, skid-proof shoes (ex. Crocs, Tevas, water shoes)
- ♣ sunscreen (to be applied before class)
- ♣ water bottle
- ♣ towel
- ♣ foul-weather gear
- ♣ extra layers for wind or chill (ex. fleece, windbreaker, rash guard)
- ♣ lunch to be brought daily, a refrigerator will be made available for storage

Rain & Bad Weather—Classes will not be cancelled because of weather. In the case of bad sailing conditions, sailors will participate in off-water instruction and games/activities. We will sail in light rain so be sure to bring appropriate rain gear and a change of clothes.

Safety—Safety first! The Junior Sailing staff will error on the side of safety when making weather-related activity decisions. First aid kits are located on the Opti Dock and in every instructor's boat. Guests may not participate in regular classes for reasons of safety, skill expectations, and class flow. If your child has medical conditions, please be sure to alert and discuss protocols with our head instructor who will relay this information to your child's instructors.

Swim Test - During the first day of each session, sailors will be required to take and pass a swim test. The test is to ensure both the proper fitting of their USCG approved life jacket and comfort in the water. With lifejackets off, sailors will be asked to swim approximately 20 yards and tread water for one minute—while smiling, of course! After the completion of the swim test children will be required to always wear their Life Jacket whenever near or on the water.

- Junior Sailing Open House (date to be advised) on Sagamore Yacht Club great lawn. If it rains, we will be inside Sagamore YC's Club House.

- The SYC Junior Sailing Program sails off of the Junior Sailing dock which is located in Oyster Bay off of Center Island's Brickyard Point. We will ferry the participants between the SYC dock and the Junior Sailing dock.

Optimist Information

- Our primary boat is the Optimist Dingy. Optis are small, single-handed dinghies intended for use by children up to the age of 15. It is one of the most popular sailing dinghies in the world, with over 150,000 boats officially registered with the class. SJS owns a fleet of 15 Opti's, purchased new for the 2015 season.
- Program-owned Opti's will be available for all participants, but if your child has their own Opti, arrangements must be made to have their boat in the dinghy staging area prior to the first day of class with a complete inventory of required equipment.
- Opti Drop is to be scheduled prior to the commencement of your child's first day of class. Dollies will be on hand to assist in bringing boats down to the dinghy staging area. The launching and towing of these boats to the Opti Dock will be handled by the instructor.
- Be sure to label your boat with your child's name and which class they are participating in so that we can identify your boat.
- Be sure that all removable parts of your boat (rig, blades, etc.) are labeled with last name and sail number.
- Attach a labeled bailer to your boat. Please check your parts inventory against the enclosed Opti description before your first class!

- Space on the Opti Dock is extremely limited. When you are not registered for a sailing session, you need to find a place other than the Opti Dock to store your boat. Limited rack space is available in the SJS dry sail area – contact Dock Master Eric Smith for more info.
- Please be aware that most Optis on the Opti Dock are SJS owned. Several families have been generous enough to share their boats with others during class. Please do not use someone else's boat outside of class, unless you have the owner's permission and we have been notified by owner.

RS Feva Information

- An International Class with events around the globe, the RS Feva is new but a fast-growing option in the junior fleets around the US. The Feva is intended as a stepping stone for sailors

who have grown out of the Opti but are light in weight for a 420; her modern styling and practical features make the Feva irresistible to young sailors.

The performance and ease of sailing is the secret behind the Feva's success. With six new boats that arrived late last summer, Sagamore Junior Sailing could not be prouder to be the first club to offer these exciting new and fast boats in our area.

Club 420 Information

- The Club 420 forms the base of many local, high school and collegiate programs in North America. Simple and safe for beginning sailors and yet challenging enough for collegiate champions, the C420 offers more learning opportunities than any other double-handed boat in North America. Over 7,000 Club 420s are sailed in youth programs.
- SJS owns 4 Club 420's. They will primarily be used in the racing program.
- If your child wishes to use their own Club 420 in the program, please contact us so we can arrange for proper storage and security.

Drop off and Pick up

- Please be on time for drop off to allow the class to start on time and get to all the fun that the staff has planned! Each day starts at 9:30am and runs until 4:30pm.
- For the safety of your children, the staff will not release your child to anyone other than you or a regular alternate without written permission. The parent or legal guardian must “check out” their sailors at Sagamore Yacht Club with the head instructor at the end of each day. There will be a daily sign-out sheet at the Hut where you can note different arrangements.

Emergency Plan

Sagamore Junior Sailing Program has a formal Emergency Plan to cover any unexpected medical issues. This plan includes how we notify parents and alternate pick-ups and your family doctor. We will share the plan with parents as part of the registration process.

The Syllabus - Beginners

For a beginning sailor, or those who would rather not race competitively, we have no expectations on their ability when starting the program. Both the two-week and four-week programs are suitable. We expect to teach them:

- How to rig and launch their boat
- How to steer
- How to tack and jibe
- How to sail on a reach, downwind and upwind
- How to avoid other boats
- How to dock the boat safely
- What to do if you capsize

In the four-week course we will also cover Man Overboard and additional safety and hone all of the above.

Of course, if they already have some or all of these skills, we will concentrate on improving them, and can easily adjust to their more advanced level, perhaps including them in some of the racing program activities. Our emphasis at this time is on safety, familiarity with being on a boat and having fun.

The Syllabus - Racing (Four or more week programs)

For sailors who already have the beginning skills, we offer a more competitive opportunity. Both Optimis, Fevas, and Club 420s are suitable for racing. We expect to teach:

- How to sail faster
- Basic rules of yacht racing
 - Avoiding collisions
 - Propulsion
 - Port/Starboard
 - Windward/leeward
 - Overtaking boat
 - Inside boat at the mark (very basic)
- How to avoid collisions
- The race course
- Starting
- Mark rounding
- Finishing
- How to join a tow
- Emergency 101

We will continue, as time and interest allow, with the following:

- Starting tactics
- Upwind tactics
- Downwind tactics
- Mark rounding tactics
- More advanced rules
- What to do if someone breaks a rule
- What to do if you break a rule
- Protest hearing basics
- Marlinspike Seamanship (knot tying)
- Predicting wind and current, and related tactics
- Running a sailboat race
- Spinnaker work

We are most interested in safety, sportsmanship and being able to actually complete a race. And, a little competitiveness. And, having fun is more important than winning each race. For those who do have more advanced skills, we can easily expand the tactics and rules sections, and there is always more to work on in boat speed.

We are currently working on plans to race informally against other organizations in Oyster Bay / Cold Spring Harbor and at least one Junior Sailing Association (JSA) regatta that we would travel to. Our Program Manager will discuss plans with interested parents and will coordinate travel and transportation. He will also be with the children (and the parents) both on-shore and on the water.

Communications and Website

Each week our head instructor will email the Junior Sailing community with recaps of the adventures of the past week and what the next week holds for the sailors. Copies will be posted to the SJS website along with pictures, other communications and program updates.

Award Luncheon

We will be arranging a family Junior Sailing Award Luncheon this summer -- Details will be posted on the website prior to the commencement of the sailing season. Families are welcome to join and meet your child's new friends and hear about their great adventures while they receive awards for their sailing accomplishments. Hamburger/Hot Dogs and juice/soda will be provided.

Stores where sailing equipment can be purchased:

Remember – we sail even if it is raining and if the wind is from the east it also can be cool on the water!

West Marine
56 New York Avenue
Huntington, NY 11743
631 427 4210

The Dinghy Shop (best place for junior sailing equipment and answers for your questions)
334 South Bayview Ave
Amityville, NY 11701
(631) 264-0005

West Marine
16 Soundview Market Pl
Port Washington, NY 11050
516-944-1729

Frogg Toggs Polly Woggs Kids Rain Suit
(These are the least expensive gear for cold or rainy days we could find, and we recommend them.)

<https://www.amazon.com/Frogg-Toggs-Polly-Woggs-Kids/dp/B007AK50K8?th=1>

Ready the sails and prepare for a fun summer on the water!

~ Sagamore Junior Sailing Committee ~
